ACT Prep Class Schedule Summer 2020

The 36-point test measures your skills in 4 areas:

English: Punctuation, grammar, usage, sentence structure; rhetorical skills (strategy, organization, style).

Math: Pre-algebra, elementary algebra, algebra/coordinate geometry, plane geometry/trigonometry.

Reading: Learning to interpret what is explicitly stated in a passage and reasoning to determine implicit meanings in both short and long passages.

Science: Data representation, research summaries and conflicting viewpoints will be analyzed for critical relationships between data; to make generalizations to gain new information, draw or make new conclusions.

ACT Advantage (Intermediate)

Our ACT Advantage Classes focus on each section of the ACT separately. Over the course of the class, our program will equip you with the skills, knowledge and confidence to perform well on test day. Our instructors will spend time on test mechanics & test-taking strategies including time saving techniques, how to read a reading passage vs. a science passage efficiently, and multiple-choice elimination strategies. Our classroom is serious but fun. In addition to traditional lectures, our instructors use games and activities to keep the students engaged while learning.

Our in-house curriculum also teaches techniques intended to help improve speed and accuracy. Regular homework assignments will help students internalize the skills and knowledge they have learned in the classroom while the Boot Camp Review days will help them build endurance and comfort with the full-length, 4-hour ACT Exam.

ACT Boot Camps (Advanced)

For serious and committed students looking for an intensive push, our ACT Boot Camps are an ideal option. We offer 5-day or 10-day rigorous camps that include daily full-length ACT diagnostic exams and 4.5 hours of instructor led class lecture and review. This structure empowers our students with the endurance and the confidence necessary to succeed when they take the real ACT.

The Boot Camps still cover conceptual learning, strategies and the fundamentals of the test specific to the needs of the class and the challenges of the given day. Our Boot Camp curriculum was assembled by our team of instructors and curriculum developers and is unique and separate from our ACT Advantage content.
