ACT Prep Class Schedule Fall 2022

The 36-point test measures your skills in 4 areas:

English: Punctuation, grammar, usage, sentence structure; rhetorical skills (strategy, organization, style).

Math: Pre-algebra, elementary algebra, algebra/coordinate geometry, plane geometry/trigonometry.

Reading: Learning to interpret what is explicitly stated in a passage and reasoning to determine implicit meanings in both short and long passages.

Science: Data representation, research summaries and conflicting viewpoints will be analyzed for critical relationships between data; to make generalizations to gain new information, draw or make new conclusions.

ACT Boot Camps (Advanced)

For serious and committed students looking for an intensive push, our ACT Boot Camps are an ideal option. We offer 5-day or 10-day rigorous camps that include daily full-length ACT diagnostic exams, instructor-led class lecture, and detailed test review. This structure empowers our students with the endurance and the confidence necessary to succeed when they take the real ACT.

The Boot Camps still cover conceptual learning, strategies and the fundamentals of the test specific to the needs of the class and the challenges of the given day. Our Boot Camp curriculum was assembled by our team of instructors and curriculum developers and is unique and designed to help students build their skills.
